

'Try Before You Buy' Terms and Conditions

The Light and Motion UK unique 'Try Before You Buy' scheme allows a low risk way of ensuring that our equipment meets your needs without committing to a full purchase.

Hire the products of your choice and up to two weeks of hire fees can be credited towards a purchase of an equivalent or better system within two calendar months of the end of your hire contract (Credit Qualifying Period)

If the initial hire has been for a period longer than two weeks then the available credit is calculated as the costs for the first two weeks as published on the Light and Motion UK Hire Price List. This benefits the consumer as our hire fees scale down for longer periods on a per week basis.

All 'Try Before You Buy' scheme arrangements are subordinate to the terms and conditions in the Hire Agreement which take precedent.

Light and Motion UK make no warranty that type and model of equipment hired is still available to purchase within the credit qualification period. In circumstances where the type of hired equipment has been discontinued or is no longer available then the credit will be offered against the nearest equivalent current product.

Exclusions and Definitions

1. *Hire fees for camcorders are excluded from the scheme*
2. *Any shipping costs, Flood Damage Waiver fees, late penalties or repair charges are excluded and not recoverable against the purchase price of equipment.*
3. *'Equivalent or better' means equipment of similar specification and cost. If the equipment purchased is only part of the equipment hired or of a lesser specification, then a credit is only available pro rata. Examples below:*
 - i. *A Stingray Plus housing, Macro 250 lighting system and Fathom 90 accessory lens have been hired, but only the housing is subsequently purchased, then the credit is calculated for the hire value of the Stingray Plus housing only for the appropriate period as per the Light and Motion UK Hire Price List in force at the time of the Hire Contract.*

- ii. A Bluefin Pro housing and Sunray 2000 lighting system have been hired but subsequently a Stingray Plus and Sunray 1000 lighting system is purchased. The available credit is calculated as the hire fees for the Stingray Plus and Sunray 1000 lighting system for the appropriate period as per the Light and Motion UK Price List in force at the time of the hire contract date.*
- 4. The Try Before You Buy Credit can not be used in conjunction with any other offer.*
- 5. Any credits under this scheme are non transferable.*
